Skills

HTML

CSS

Javascript

React JS

Mongo DB

Mongoose

Express JS

Git

Language

English

Hindi

Telugu

Internship

HashInsert

Dec 2022 - Present

I learned HTML, CSS, JS, React, Nextjs, Bootstrap, Material UI, and Express throughout my training at Hashinsert. I worked on projects such as url-shortener and worked on an MVP for a startup, exhibiting front and back-end development skills. I also learned about collaboration and project management.

2017

SSC

CGPA: 8.8

Projects

E-commerce

E-commerce is the purchasing and selling of goods and services, as well as the transmission of payments or data, over the internet. It is built with HTML and CSS.

Staff Minder

This tool measures productivity and makes recommendations to improve performance. It also records attendance, leave records, and activities while on job. It is developed by using the technologies React, Chakra UI, Express Js, Mongoose, Render, and netlify (deployment).

URL-SHORTENER

In order to make it easier to remember and track the web page, its address should be condensed. It is developed using the technologies like React, Express, Mongoose, MongoDB, and deployed frontend in vercel and Backend in render.
